8.09 CGPA

V.G Vaze college of Arts science and commerce   **June 2019– March 2020**

H.sc (Higher Secondary)

72.09%

PERSONAL PROJECTS

Coffee Shop Website

Built a responsive coffee shop website using **HTML & CSS**, featuring a stylish homepage, menu section, and contact details. Designed a clean and user-friendly interface to enhance the browsing experience. Implemented smooth navigation and a visually appealing layout. Ensured mobile responsiveness and focused on a warm and inviting design to reflect the coffee shop's ambiance.

Portfolio Website

Developed my portfolio website using the **MERN stack** (MongoDB, Express.js, React, Node.js) to showcase my projects, skills, and experience. The website features a modern and responsive design built with React and Bootstrap, ensuring a seamless user experience across all devices. The backend, powered by Node.js and Express, handles contact form submissions efficiently, while MongoDB securely manages and stores data.

Art Studio Portfolio website

I designed and developed an Art Studio Website using **HTML, CSS** creating a visually stunning and immersive experience for art lovers. The website showcases artworks, artist profiles, and upcoming exhibitions in a clean and elegant layout. With a user-friendly interface and smooth navigation, visitors can explore galleries and connect with artists effortlessly. The responsive design ensures seamless viewing across all devices, making art more accessible to everyone.

Job-portal Website

I developed a comprehensive Job Portal Website using **MERN STACK** to facilitate seamless connections between job seekers and employers. The platform allows employers to post job listings, manage applications, and search for potential candidates. Job seekers can create profiles, upload resumes, and apply for jobs directly through the site.
